The term of this non-exclusive Renewal License shall be for a period of ten (10) years and shall commence on May 19, 2008 and shall terminate at midnight on May 18, 2018.

#### **SECTION 2.3 - RESERVATION OF AUTHORITY**

Nothing in this Renewal License shall (a) abrogate the right of the Issuing Authority to perform any public works or public improvements of any description, or (b) be construed as a waiver or release of the rights of the Issuing Authority in and to the Public Ways.

#### **SECTION 2.4 - NON-EXCLUSIVITY OF LICENSE**

(a) This Renewal License shall not affect the right of the Issuing Authority to grant to any other Person a license or right to occupy or use the Public Ways or streets, or portions thereof, for the construction, upgrade, installation, operation or maintenance of a Cable Television System within the Town of Fairhaven; or the right of the Issuing Authority to permit the use of the Public Ways and places of the Town for any purpose(s) whatsoever. The Licensee hereby acknowledges the Issuing Authority's right to make such grants and permit such uses.

## **SECTION 2.7 – TRANSFER OF THE RENEWAL LICENSE**

Such consent shall be given only after a public hearing upon a written application therefore on forms as may be prescribed by the FCC and/or the Massachusetts Department of Telecommunications and Cable. An application for consent to a transfer or assignment, if required, shall be signed by the Licensee and by the proposed transferee or

assignee or by their representatives, evidence of whose authority shall be submitted with the application.

(b) Pursuant to applicable State and federal law, as may be amended, in considering a request to transfer control of the Renewal License, the Issuing Authority shall consider the transferee's financial capability, management experience, technical expertise and legal ability to operate a Cable System under the existing license and may consider any other criteria allowable under federal and State laws and regulations.

(c) The consent or approval of the Issuing Authority to any assignment or transfer of the Renewal License granted to the Licensee shall not constitute a waiver or release of the rights of the Town in and to the streets and Public Ways or any other rights of the Town under the Renewal License, and any such transfer shall, by its terms, be expressly subordinate to the terms and conditions of the Renewal License.

(d) The Licensee shall promptly notify the Issuing Authority of any action requiring the consent of the Issuing Authority pursuant to this Section 2.7.

Unless otherwise allowed by applicable law(s), the Issuing Authority shall make a decision on said written application within one hundred and twenty (120) days of receipt of said application. After 120 days, the application shall be deemed approved, unless said 120 day period is extended in writing by mutual agreement of the parties pursuant to applicable law.

(g) Any proposed controlling or owning Person or transferee approved by the Issuing Authority shall be subject to all of the terms and conditions contained in the Renewal License.

## **SECTION 2.8 – EFFECT OF UNAUTHORIZED TRANSFER ACTION**

(a) Any transfer of the Cable System without complying with Section 2.7 above shall be null and void, and shall be deemed a material breach of this Renewal License.

(b) If the Issuing Authority denies its consent to any such action and a transfer has nevertheless been effected, the Issuing Authority may revoke and terminate this Renewal License, unless such transfer is otherwise allowable by applicable law.

(c) The grant or waiver of any one or more of such consents shall not render unnecessary any subsequent consent or consents, nor shall the grant of any such consent constitute a waiver of any other rights of the Town.

### **ARTICLE 3**

#### **SYSTEM SPECIFICATIONS AND CONSTRUCTION**

##### **SECTION 3.1 - AREA TO BE SERVED**

The Licensee shall make its Cable Services available to all residents of the Town, subject to the line extension policy of Section 3.2 below, provided that the Licensee is able to obtain any necessary easements, permits and/or permission from owners of property and multiple dwelling units. The Licensee shall make its best efforts to obtain any necessary easements or permission from owners of property in the Town in order to make Cable Service available to all residents.

---

##### **SECTION 3.2 – LINE EXTENSION POLICY**

Consistent with Section 3.1 above, the Cable Television System shall be extended automatically, to newly constructed residential units and subdivisions at the Licensee's sole cost and expense, in any and all areas of the Town containing twenty (20) dwelling units or more per aerial mile of the Cable System, twenty (20) dwelling units or more per underground mile of the Cable System, provided that there is existing underground conduit that is made available to the Licensee or thirty (30) dwelling units or more per underground mile of the Cable System where there is no available underground conduit for use by the Licensee. The Licensee shall promptly apply for all necessary permits. Said Services shall be made available and fully activated to requesting dwelling units no later than ninety (90) days after all necessary permits are obtained, subject to Section 13.2, Force Majeure.

##### **SECTION 3.3 – RESIDENTIAL SUBDIVISIONS**

Provided Licensee has at least ninety (90) days' prior written notice concerning the opening of residential subdivision trenching, or of the installation of conduit for the location of utilities, it shall install its cable in such trenching or conduits or may seek permission to utilize alternative trenching or conduits within a comparable time frame. If a substantial quantity of cable is required for a large subdivision and said quantity is not in stock, the Licensee shall be allowed additional time for said installation. The Issuing Authority, or its designee, shall exercise reasonable efforts to have the Fairhaven Planning Board and developers give timely written notice of trenching and underground construction to the Licensee. Developer shall be responsible for the digging and back-filling of all trenches.

### **SECTION 3.4 – INSTALLATION CHARGES**

Any dwelling unit with a one hundred fifty feet (150 ft.) or less aerial Drop from the feeder cable shall be entitled to a Standard Installation rate. Installations with more than a one hundred fifty foot (150 ft.) Drop from the feeder cable or which require underground installation shall be provided at a rate established by the Licensee in accordance with applicable law and regulations.

### **SECTION 3.5 – LOCATION OF THE CABLE TELEVISION SYSTEM**

The Licensee shall own, install, operate and maintain the Cable Television System within the Town of Fairhaven. Licensee-owned poles and towers and other obstructions shall be erected so as not to interfere with vehicular or pedestrian traffic over Public Ways and places. The erection and location of all licensee-owned poles, towers and other obstructions shall be in accordance with all applicable State and local laws and regulations.

### **SECTION 3.6 – UNDERGROUND FACILITIES**

(a) In the areas of the Town in which telephone lines and electric utility lines are currently, or in the future specified to be, underground, whether required by law or not, all of the Licensee's lines, cables and wires shall be underground. At such time as these facilities are placed underground by the telephone and electric utility companies, the Licensee shall likewise place its facilities underground at no cost to the Town.

(b) Pursuant to Section 3.4(a) above, underground cable lines shall be placed beneath the pavement sub-grade in compliance with applicable Town by-laws, rules, regulations and/or standards. It is the policy of the Town that existing poles for electric and communication purposes be utilized wherever possible and that underground installation is preferable to the placement of additional poles.

(c) Except as provided for in paragraph (a) herein, in the event that the Licensee is required to place existing aerial plant underground, the Licensee reserves its right to pass those costs through to Subscribers if and to the extent allowed by applicable law. ### **U.S.C. Section 76.309 / FCC Customer Services Obligations**

#### **PART 76--CABLE TELEVISION SERVICES – Subpart H--General Operating Requirements**

##### **Sec. 76.309 Customer Services Obligations**

(a) A cable franchise authority may enforce the customer Services standards set forth in paragraph (c) of this section against cable operators. The franchise authority must provide affected cable operators ninety (90) days written notice of its intent to enforce the standards.

(b) Nothing in this rule should be construed to prevent or prohibit:

(1) A franchising authority and a cable operator from agreeing to customer Services requirements that exceed the standards set forth in paragraph (c) of this section;

(2) A franchising authority from enforcing, through the end of the franchise term, pre-existing customer Services requirements that exceed the standards set forth in paragraph (c) of this section and are contained in current franchise agreements;

(3) Any State or any franchising authority from enacting or enforcing any consumer protection law, to the extent not specifically preempted herein; or

(4) The establishment or enforcement of any State or municipal law or regulation concerning customer Services that imposes customer Services requirements that exceed, or address matters not addressed by the standards set forth in paragraph (c) of this section.

(c) Effective July 1, 1993, a cable operator shall be subject to the following customer Services standards:

(1) Cable system office hours and telephone availability--

(i) The cable operator will maintain a local, toll-free or collect call telephone access line which will be available to its Subscribers 24 hours a day, seven days a week.

(A) Trained company representatives will be available to respond to customer telephone inquiries during normal business hours.

(B) After normal business hours, the access line may be answered by a Services or an automated response system, including an answering machine. Inquiries received after normal business hours must be responded to by a trained company representative on the next business day.

(ii) Under normal operating conditions, telephone answer time by a customer representative, including wait time, shall not exceed thirty (30) seconds when the connection is made. If the call needs to be transferred, transfer time shall not exceed thirty (30) seconds. These standards shall be met no less than ninety (90) percent of the time under normal operating conditions, measured on a quarterly basis.

(iii) The operator will not be required to acquire equipment or perform surveys to measure compliance with the telephone answering standards above unless an historical record of complaints indicates a clear failure to comply.

(iv) Under normal operating conditions, the customer will receive a busy signal less than three (3) percent of the time.

(v) Customer Services center and bill payment locations will be open at least during normal business hours and will be conveniently located.

(2) Installations, outages and Services calls. Under normal operating conditions, each of the following four standards will be met no less than ninety-five (95) percent of the time measured on a quarterly basis:

(i) Standard installations will be performed within seven (7) business days after an order has been placed.

"Standard" installations are those that are located up to 125 feet from the existing distribution system.

(ii) Excluding conditions beyond the control of the operator, the cable operator will begin working on "Services interruptions" promptly and in no event later than 24 hours after the interruption becomes known. The cable operator must begin actions to correct other Services problems the next business day after notification of the Services problem.

(iii) The "appointment window" alternatives for installations, Services calls, and other installation activities will be either a specific time or, at maximum, a four-hour time block during normal business hours. (The operator may schedule Services calls and other installation activities outside of normal business hours for the express convenience of the customer.)

(iv) An operator may not cancel an appointment with a customer after the close of business on the business day prior to the scheduled appointment.

(v) If a cable operator representative is running late for an appointment with a customer and will not be able to keep the appointment as scheduled, the customer will be contacted. The appointment will be rescheduled, as necessary, at a time that is convenient for the customer.

(3) Communications between cable operators and cable Subscribers--

(i) Notifications to Subscribers--

(A) The cable operator shall provide written information on each of the following areas at the time of installation of Services, at least annually to all Subscribers, and at any time upon request:

(1) Products and Services offered;

(2) Prices and options for Programming Services and conditions of subscription to Programming and other Services;

(3) Installation and Services maintenance policies;

(4) Instructions on how to use the Cable Service;

(5) Channel positions Programming carried on the system; and,

(6) Billing and complaint procedures, including the address and telephone number of the local franchise authority's cable office.

(B) Customers will be notified of any changes in rates, Programming Services or channel positions as soon as possible in writing. Notice must be given to Subscribers a minimum of thirty (30) days in advance of such changes if the change is within the control of the cable operator. In addition, the cable operator shall notify Subscribers thirty (30) days in advance of any significant changes in the other information required by paragraph (c)(3)(i)(A) of this section. Notwithstanding any other provision of Part 76, a cable operator shall not be required to provide prior notice of any rate change that is the result of a regulatory fee, franchise fee, or any other fee, tax, assessment, or charge of any kind imposed by any Federal agency, State, or franchising authority on the transaction between the operator and the subscriber.

(ii) Billing--

(A) Bills will be clear, concise and understandable. Bills must be fully itemized, with itemizations including, but not limited to, basic and premium Services charges and equipment charges. Bills will also clearly delineate all activity during the billing period, including optional charges, rebates and credits.

(B) In case of a billing dispute, the cable operator must respond to a written complaint from a subscriber within 30 days.

(iii) Refunds--Refund checks will be issued promptly, but no later than either--

(A) The customer's next billing cycle following resolution of the request or thirty (30) days, whichever is earlier, or

(B) The return of the equipment supplied by the cable operator if Services is terminated.

(iv) Credits--Credits for Services will be issued no later than the customer's next billing cycle following the determination that a credit is warranted.

(4) Definitions--

(i) Normal business hours--The term "normal business hours" means those hours during which most similar businesses in the community are open to serve customers. In all cases, "normal business hours" must include some evening hours at least one night per week and/or some weekend hours.

(ii) Normal operating conditions--The term "normal operating conditions" means those Services conditions which are within the control of the cable operator. Those conditions which are not within the control of the cable operator include, but are not limited to, natural disasters, civil disturbances, power outages, telephone network outages, and severe or unusual weather conditions. Those conditions which are ordinarily within the control of the cable operator include, but are not limited to, special promotions, pay-per-view events, rate increases, regular peak or seasonal demand periods, and maintenance or upgrade of the cable system.

(iii) Services interruption--The term "Services interruption" means the loss of picture or sound on one or more cable channels.

### **Billing and Termination of Services 207 CMR 10.00**

#### **10.01: Billing Practices Notice**

- (1) Every cable television operator shall give written notice of its billing practices to potential Subscribers before a subscription agreement is reached. Such notice shall include practices relating to the frequency and timing of bills, payment requirements necessary to avoid account delinquency, billing dispute resolution procedures and late payment penalties.
- (2) A copy of the cable television operator's billing practices notice, work order and sample subscriber bill shall be filed by March 15th of each year with the Commission, the issuing authority, and the company's local office, where they shall be available for public inspection. If an operator amends its billing practices notice, work order or subscriber bill after submitting the annual filing, it shall file copies of the amendments with the Commission, the issuing authority and the company's local office.
- (3) At least 30 days prior to implementing a change of one of its billing practices, the cable television operator shall notify in writing the Commission, the issuing authority and all affected Subscribers of the change and include a description of the changed practice.
- (4) Statements about billing practices in work orders, marketing, materials and other documents shall be consistent with the billing practices notice.

#### **10.02: Services, Rates and Charges Notice**

- (1) The cable television operator shall give notice of its Services, rates and charges to potential Subscribers before a subscription agreement is reached.
- (2) At least 30 days prior to implementing an increase in one of its rates or charges or a substantial change in the number or type of Programming Services, the operator shall notify, in writing, the Commission, the issuing authority and all affected Subscribers of the change and include a description of the increased rate or charge. The notice shall list the old and new rate or charge and, if applicable, the old and new Programming Services provided.
- (3) Every cable television operator shall fully disclose in writing all of its Programming Services and rates, upon request from a subscriber.
- (4) Every cable television operator shall fully disclose in writing all of its charges for installation, disconnection, downgrades and upgrades, reconnection, additional outlets, and rental, purchase and/or replacement due to damage or theft of equipment or devices used in relation to Cable Service, upon request from a subscriber.
- (5) Every cable television operator shall provide written notice of the charge, if any, for Services visits and under what circumstances such charge will be imposed, upon request from a subscriber.
- (6) A copy of the cable operator's Programming Services, rates and charges shall be filed by March 15th of each year with the Commission, the issuing authority and the company's local office where it shall be made available for public inspection. If an operator amends its notice after the annual filing, it shall file a copy of the amendment with the Commission, the issuing authority and the company's local office.
- (7) A cable operator shall not charge a subscriber for any Services or equipment that the subscriber has not affirmatively requested by name. This provision, however, shall not preclude the addition or deletion of a specific program from a Services offering, the addition or deletion of specific channels from an existing tier of Services, or the restructuring or division of existing tiers of Services that do not result in a fundamental change in the nature of an existing Services or tier of Services.

#### **10.03: Form of Bill**

- (1) The bill shall contain the following information in clear, concise and understandable language and format:
  - (a) The name, local address and telephone number of the cable television operator. The telephone number shall be displayed in a conspicuous location on the bill and shall be accompanied by a statement that the subscriber may call this number with any questions or complaints about the bill or to obtain a description of the subscriber's rights under 207 CMR 10.07 in the event of a billing dispute;
  - (b) the period of time over which each chargeable Services is billed including prorated periods as a result of establishment and termination of Services;
  - (c) the dates on which individually chargeable Services were rendered or any applicable credits were applied;

- (d) separate itemization of each rate or charge levied or credit applied, including, but not be limited to, basic, premium Services and equipment charges, as well as any unit, pay-per-view or per item charges;
- (e) the amount of the bill for the current billing period, separate from any prior balance due;
- (f) The date on which payment is due from the subscriber.
- (2) Cable operators may identify as a separate line item of each regular subscriber bill the following:
  - (a) The amount of the total bill assessed as a franchise fee and the identity of the franchising authority to whom the fee is paid;
  - (b) The amount of the total bill assessed to satisfy any requirements imposed on the cable operator by the franchise agreement to support public, educational, or governmental channels or the use of such channels;
  - (c) The amount of any other fee, tax, assessment, or charge of any kind imposed by any governmental authority on the transaction between the operator and the subscriber. In order for a governmental fee or assessment to be separately identified under 207 CMR 10.03, it must be directly imposed by a governmental body on a transaction between a subscriber and an operator.
- (3) All itemized costs shall be direct and verifiable. Each cable operator shall maintain a document in its public file which shall be available upon request, that provides the accounting justification for all itemized costs appearing on the bill.

#### **10.04: Advance Billing and Issuance of Bill**

- (1) In the absence of a license provision further limiting the period of advance billing, a cable operator may, under uniform nondiscriminatory terms and conditions, require payment not more than two months prior to the last day of a Services period.
- (2) A cable subscriber may voluntarily offer and a cable operator may accept advance payments for periods greater than two months.
- (3) Upon request, a cable television operator shall provide Subscribers with a written statement of account for each billing period and a final bill at the time of disconnection.

#### **10.05: Billing Due Dates, Delinquency, Late Charges and Termination of Services**

- (1) Subscriber payment is due on the due date marked on the bill, which shall be a date certain and in no case a statement that the bill is due upon receipt. The due date shall not be less than five business days following the mailing date of the bill.
- (2) A subscriber account shall not be considered delinquent unless payment has not been received by the company at least 30 days after the bill due date.
- (3) The following provisions shall apply to the imposition of late charges on Subscribers:
  - (a) A cable television operator shall not impose a late charge on a subscriber unless a subscriber is delinquent, the operator has given the subscriber a written late charge notice in a clear and conspicuous manner, and the subscriber has been given at least eight business days from the date of delinquency to pay the balance due.
  - (b) A charge of not more than 5 percent of the balance due may be imposed as a one-time late charge.
  - (c) No late charge may be assessed on the amount of a bill in dispute.
- (4) A cable television operator shall not terminate a subscriber's Services unless the subscriber is delinquent, the cable operator has given the subscriber a separate written notice of termination in a clear and conspicuous manner, and the subscriber has been given at least eight business days from the mailing of the notice of termination to pay the balance due. A notice of termination shall not be mailed to Subscribers until after the date of delinquency.
- (5) A cable television operator shall not assess a late charge on a bill or discontinue a subscriber's cable television Services solely because of the nonpayment of the disputed portion of a bill during the period established by 207 CMR 10.07 for registration of a complaint with the operator or during the process of a dispute resolution mechanism recognized under 207 CMR 10.07.
- (6) Any charge for returned checks shall be reasonably related to the costs incurred by the cable company in processing such checks.

#### **10.06: Charges for Disconnection or Downgrading of Services**

A cable television operator may impose a charge reasonably related to the cost incurred for a downgrade of Services, except that no such charge may be imposed when:

- (a) A subscriber requests total disconnection from Cable Service; or
- (b) A subscriber requests the downgrade within the 30 day period following the notice of a rate increase or a substantial change in the number or type of Programming Services relative to the Services (s) in question.

- (1) If a subscriber requests disconnection from cable television Services prior to the effective date of an increase in rates, the subscriber shall not be charged the increased rate if the cable television operator fails to disconnect Services prior to the effective date. Any subscriber who has paid in advance for the next billing period and who requests disconnection from Services shall receive a prorated refund of any amounts paid in advance.

**10.07: Billing Disputes**

- (1) Every cable television operator shall establish procedures for prompt investigation of any billing dispute registered by a subscriber. The procedure shall provide at least 30 days from the due date of the bill for the subscriber to register a complaint. The cable television operator shall notify the subscriber of the result of its investigation and give an explanation for its decision within 30 working days of receipt of the complaint.
- (2) The subscriber shall forfeit any rights under 207 CMR 10.07 if he or she fails to pay the undisputed balance within 30 days.
- (3) Any subscriber in disagreement with the results of the cable television operator's investigation shall promptly inquire about and take advantage of any complaint resolution mechanism, formal or informal, available under the license or through the issuing authority before the Commission may accept a petition filed under 207 CMR 10.07(4).
- (4) The subscriber or the cable television operator may petition the Commission to resolve disputed matters within 30 days of any final action. Final action under 207 CMR 10.07(3) shall be deemed to have occurred 30 days after the filing of a complaint.
- (5) Upon receipt of a petition, the Commission may proceed to resolve the dispute if all parties agree to submit the dispute to the Commission and be bound by the Commission's decision and the Commission obtains a statement signed by the parties indicating that agreement. In resolving the dispute, the Commission may receive either written or oral statements from the parties, and may conduct its own investigation. The Commission shall then issue a decision based on the record and the parties shall receive written notification of the decision and a statement of reasons therefore.

**10.08: Security Deposits**

- (1) A cable operator shall not require from any cable subscriber a security deposit for converters or other equipment in excess of the cost of the equipment.
- (2) The cable operator shall pay interest to the cable subscriber at a rate of 7% per year for any deposit held for six months or more, and such interest shall accrue from the date the deposit is made by the cable subscriber. Interest shall be paid annually by the cable operator to the cable subscriber, either as a direct payment or as a credit to the cable subscriber's account.
- (3) Within 30 days after the return of the converter or other equipment, the cable operator shall return the security deposit plus any accrued interest to the cable subscriber, either as a direct payment or as a credit to the cable subscriber's account.
